## SISMA BIG SMARKY YAG MARKING LASER

The Big Smarky machine is a flexible and economic laser system for marking plastic and any type of metal material. This high quality marking laser allows you to engrave names, logos and inscriptions as well as transfer photographic images onto metal. The Big Smarky laser source gives you the possibility to mark on a working area of 23.43”L X 19.48”W X 14.96”H. The wide working chamber also allows easy integration of accessories such as a plate microfeeder, inside and outside ring attachment or rotating table for high speed productivity. Comes equipped with the SLC Sisma software.
